

DIAMOND CUT GOLD SERIES STEAKS

Our **Diamond Cut Gold Series** steaks are exclusively sourced from Australia's richest grazing lands as seasons allow.

Under our Diamond Cut Gold Series banner our steaks are labelled **Prime** or **Choice**.

The **Prime** steaks are minimum **100 day grain fed** to produce extra marbling which slowly melts and bastes the meat throughout the cooking process providing maximum tenderness for that famous OBJ's eating experience.

Our **Choice** steaks are **Grass fed** and free range, giving the meat a cleaner, leaner flavour... a taste sensation!

Degrees of Doneness

A **rare** steak will be very moist with warm juices, the internal colour of the meat will be very red from edge to edge.

A **medium rare** steak will be pink from edge to edge with a red centre, moist with warmer juices.

A **medium** steak will be pink from internal edge to edge and centre, juices will be slightly clear pink.

A **medium well** steak will be a light grey internal colour, with a pink centre.

A **well done** steak will be grey internally from edge to edge, dry of juices. For well done steaks, where possible, depending on the cut of meat, we recommend butter-flying the steak to speed up the cooking process and therefore, not dry out the meat too much. OBJ's recommend our steaks not be cooked past medium well for optimum quality assurance.
